

TOWN HALL MEETING

On March 7, 2018 at 5:00pm there will be a town hall meeting, located at the fire hall, to discuss the future location of city hall.

There are three location options that will be discussed at the meeting; the current depot building, the airport building, or a new building on city owned property. Information regarding the current condition and required improvements of the depot building will also be discussed. The City of Ewart city council would like the city residents' valued opinions before making a decision on the future location of city hall. Please plan on attending this town hall meeting in order to assist in this decision.
